

DONKEY HEALTH AND WELFARE

With Alex Thiemann, Senior Veterinary Surgeon

 4 February 2020 [Read on The Donkey Sanctuary website](#)

The Donkey Sanctuary has an ambition to help improve the lives of donkeys and mules around the world, by providing relevant up-to-date resources on donkey care, welfare, behaviour, nutrition and veterinary topics. These recordings of live webinars are created to help owners, handlers, carers and the employees of organisations across the world find the information they need to improve the lives of their donkeys.

This webinar recording is a must watch for all donkey owners and carers, covering the appropriate management of donkey health and welfare.

WEBINAR DETAILS

This webinar recording will help you gain a clear insight into the management of donkey health and welfare, recognising good and poor health in donkeys and sourcing donkey information and support.

It will cover key elements of donkey veterinary care, understanding appropriate management, recognising signs of poor and good health, feeding, weight control, healthy vital signs, dental problems, conditions of the foot, castration, equine management system, vaccination and parasites.

Running time: 50 MINUTES
